# CENGN

Join our team!

Business Analyst Co-op

CENGN is Canada's Centre of Excellence in Next Generation Networks. Our mission is to drive innovation and adoption of advanced networking technologies in Canada through our Living Labs and advanced networking infrastructure, technical expertise, talent development, and partner ecosystem, enabling the digital transformation and competitiveness of Canadian industry and the commercial growth of Canadian digital technology solutions.

With the digital transformation opportunity valued at over $200 billion in Canada, it is clear the new competitive landscape is being driven by digital innovation and the ability to integrate this technology across industries. Join our team, as we work with our ecosystem of technology, innovation, government, and academic partners to build Living Lab testing infrastructure and deliver services that accelerate the testing, validation, demonstration, commercialization and adoption of digital innovation across Canada.

The CENGN Advantage

Career Development
An agile company in a modern setting where your ideas and opportunities for growth are nurtured and encouraged

Work Where You Work Best
Remote or hybrid options to suit your individual professional and personal needs

Canadian Innovation Support
Be part of an organization that drives innovation by providing Canadian start-ups and scaleups as well as tech students and professionals the ability to succeed

Great People
The advantage of working with colleagues passionate about their contributions and united under the same mission

We are seeking highly motivated **Business Analyst** to support our team by gathering and analyzing data, documenting business processes and assisting in the development of solutions to improve business operations. This is an excellent opportunity to work closely with cross-functional teams and gain hands-on experience in business analysis, data-driven decision-making and process optimization.

Position: Business Analyst Co-op

Hourly Wage: $23/hr

Location: Ottawa

Use of AI in Hiring: No, we do not use AI in screening/selection.

Vacancy Status: 4-8 month coop position

Key Responsibilities:

- Assist in conducting market research to identify industry trends, competitor activity, and potential business opportunities
- Support ecosystem analysis to map key players, technologies, and partnerships in the telecom and next-gen network sectors
- Contribute to the development of materials and presentations for partner outreach and engagement
- Synthesize data from various sources, including market reports, company databases, and internal data sets, to provide actionable insights
- Collaborate with internal teams to track progress on BD initiatives and assess the performance of partnerships and market activities
- Help identify and assess potential risks and opportunities in the business development pipeline

Qualifications:

- Pursuing a degree in Business, Economics, or a related field (preferred)
- A demonstrated interest in technology, telecommunications, or market analysis
- Strong analytical and problem-solving abilities
- Proficiency in Excel/Google Sheets, including familiarity with data analysis techniques (e.g., pivot tables, VLOOKUP, etc.)
- Strong research capabilities with the ability to synthesize complex data and draw insights
- Clear and concise communication skills, both written and verbal

Languages:

- English oral, reading, and writing
- French oral, reading, and writing would be considered an asset

Interested and qualified candidates are invited to forward their resume in confidence to CENGN via CENGN's Application Portal.
