

Accessibility for Ontarians with Disabilities Act (AODA) Policy Statement

The Centre of Excellence in Next Generation Networks (CENGN) is committed to ensuring equal access and participation for people with disabilities.

We are committed to treating people with disabilities in a way that allows them to maintain their dignity and independence.

We believe in integration, and we are committed to meeting the needs of people with disabilities in a timely manner.

CENGN will do so by removing and preventing barriers to accessibility and by meeting our accessibility requirements under Ontario's accessibility laws.
